Subject: Coronavirus Update

Dear Valued Customers and Partners,

I hope this message finds everyone well as we work through the unprecedented impact that the Coronavirus has had on our professional and personal lives. We continue to focus on the safety of our team and our partners while remaining open to support our customers. While Massachusetts has extended the closure of non-essential businesses until May 4th, Anderson Power Products continues to operate and support the needs of our customers supporting critical industries like warehouse distribution, datacom and telecom, and medical equipment manufacturers. We have seen some impact to our supply chain but are continuing to work through these issues to try and minimize the impact to our customers. Many of our employees are working from home when possible to minimize the potential spread of the virus but continue to be available for support by phone or video conference until further notice.

Our thoughts go out to all that have already been negatively impacted by the Coronavirus and hope that we will all get through this soon and be stronger for it. We hope everyone remains safe and well.

Sincerely,

William Estes
General Manager
