5 Position Mini PL SPEC Pak Connector

Anderson Power Products® (APP®) is pleased to announce the addition of a 5 Position offering to the Mini SPEC Pak® connector family. This environmentally sealed and touch safe connector houses up to 5 contact positions in a compact latching shell.

Power handling capabilities up to 23 amps and 600 volts AC/DC per pole allow more power in a smaller waterproof (IP68) shell than competing solutions. A unique and easy to assemble back shell design enables the 5 Position Mini PL to accommodate up to 12 AWG (2.5 mm²) wires while maintaining the compact size. Gold plated contacts down to 24 AWG (0.25 mm²) are suitable for power or signal needs. Optional sequencing capabilities are available for design flexibility.

For more information about Mini SPEC Pak®, SPEC Pak®, and other innovative high power interconnect solution from Anderson Power Products visit www.andersonpower.com .

About Anderson Power Products®

Anderson Power Products® is a leader in developing high quality, low cost, power interconnect solutions for industries including: Back Up Power Systems, Electrical Vehicles, UPS Systems, Telecommunications High-Technology Devices and Alternative Energy Solutions. Headquartered in Sterling, MA, Anderson Power Products® facilities are ISO 9001:2008 certified and uses automated manufacturing to offer uncompromising quality. In addition, APP® operates a distribution and assembly facility in Warrington, England to provide support for their European customers, as well as three Asia Pacific facilities: Shenzhen, China, Shatin Hong Kong and Taichung City 407, Taiwan (R.O.C.).

APP® connectors are available through their authorized distributor network or direct from the factory. For further information about the company and its products, call 978-422-3600 or visit www.andersonpower.com.
