ANDERSON POWER PRODUCTS® OFFERS HIGH PERFORMANCE ROCKER POWER CLIP

Anderson Power Products® (APP), a leader in power interconnect solutions, introduces the Rocker Power Clip electrical connector. Designed as a low cost solution for interconnection between two perpendicular power bus bars, the Rocker Power Clip is used in “N+1” rectifier, power supply, and switching power supply applications.

The Rocker Power Clip’s high performance contact provides low voltage drop and superior amperage carrying capability. The connector accepts a solid .125" thick nickel or gold plated rectangular bus bar tab, which eliminates the need for a mating connector, simplifies construction, and lowers overall cost.

APP’s Rocker Power Clip connector allows for 6 degrees of float, resulting in improved blind mating and greater vertical chassis manufacturing tolerances. The Rocker Power Clip's design enables the connector to be blind mated in the deepest racks, while its small size facilitates dense power packing.

Recognized to UL1977 and CSA standard C22.2 and rated for up to 300 amps continuous service, the Rocker Power Clip’s safety and electrical performance has been verified to the highest standards. The Rocker Power Clip has been UL approved for hot plug current interruption of 100A at 48V and 200A at 42V using a gold plated bus bar tab.

About Anderson Power Products

Anderson Power Products is a leader in developing high quality, low cost, power interconnect solutions for several industries, including: Back Up Power Systems, Electrical Recreational Vehicles, UPS Systems, Telecommunications and High-Technology Devices. Headquartered in Sterling, MA, Anderson Power Product’s facility is ISO 9001:2000 certified and uses automated manufacturing to offer uncompromising quality. In addition, APP operates a manufacturing and assembly facility in Fermoy, Ireland to provide support for their European customers, as well as three Asia Pacific facilities: Shenzhen, China, Shatin Hong Kong and Taichung City 407, Taiwan (R.O.C.).

APP connectors are available through their authorized distributor network or direct from the factory. For further information about the company and its products, call 978-422-3600 or visit their web site at www.andersonpower.com.
